

Deutsche Akkreditierungsstelle GmbH

Entrusted according to Section 8 subsection 1 AkkStelleG in connection with Section 1 subsection 1 AkkStelleGBV
Signatory to the Multilateral Agreements of EA, ILAC and IAF for Mutual Recognition

Accreditation

The Deutsche Akkreditierungsstelle GmbH attests that the testing laboratory

SIGMA KARLSRUHE GmbH
Ingenieurleistungen für das Bauen - Prüfinstitut für Baukonstruktionen
Daimlerstraße 21, 76316 Malsch

is competent under the terms of DIN EN ISO/IEC 17025:2018 to carry out tests in the following fields:

Mechanical testing of load bearing capacity and of deformation behaviour of scaffold systems and scaffold structural elements of service and working scaffolds and falsework as well as formwork and racking systems; selected tests on metallic materials

The accreditation certificate shall only apply in connection with the notice of accreditation of 12.08.2019 with the accreditation number D-PL-18750-01. It comprises the cover sheet, the reverse side of the cover sheet and the following annex with a total of 4 pages.

Registration number of the certificate: **D-PL-18750-01-00**

Berlin,
12.08.2019

Dr. Heike Manke
Head of Division

Translation issued:
12.08.2019

Head of Division

The certificate together with its annex reflects the status at the time of the date of issue. The current status of the scope of accreditation can be found in the database of accredited bodies of Deutsche Akkreditierungsstelle GmbH.

Deutsche Akkreditierungsstelle GmbH

Office Berlin
Spittelmarkt 10
10117 Berlin

Office Frankfurt am Main
Europa-Allee 52
60327 Frankfurt am Main

Office Braunschweig
Bundesallee 100
38116 Braunschweig

The publication of extracts of the accreditation certificate is subject to the prior written approval by Deutsche Akkreditierungsstelle GmbH (DAkkS). Exempted is the unchanged form of separate disseminations of the cover sheet by the conformity assessment body mentioned overleaf.

No impression shall be made that the accreditation also extends to fields beyond the scope of accreditation attested by DAkkS.

The accreditation was granted pursuant to the Act on the Accreditation Body (AkkStelleG) of 31 July 2009 (Federal Law Gazette I p. 2625) and the Regulation (EC) No 765/2008 of the European Parliament and of the Council of 9 July 2008 setting out the requirements for accreditation and market surveillance relating to the marketing of products (Official Journal of the European Union L 218 of 9 July 2008, p. 30). DAkkS is a signatory to the Multilateral Agreements for Mutual Recognition of the European co-operation for Accreditation (EA), International Accreditation Forum (IAF) and International Laboratory Accreditation Cooperation (ILAC). The signatories to these agreements recognise each other's accreditations.

The up-to-date state of membership can be retrieved from the following websites:

EA: www.european-accreditation.org

ILAC: www.ilac.org

IAF: www.iaf.nu

Deutsche Akkreditierungsstelle GmbH

Annex to the Accreditation Certificate D-PL-18750-01-00 according to DIN EN ISO/IEC 17025:2018

Valid from: 12.08.2019

Date of issue: 12.08.2019

Holder of certificate:

SIGMA KARLSRUHE GmbH
Ingenieurleistungen für das Bauen - Prüfinstitut für Baukonstruktionen
Daimlerstraße 21, 76316 Malsch

Tests in the fields:

Mechanical testing of load bearing capacity and of deformation behaviour of scaffold systems and scaffold structural elements of service and working scaffolds and falsework as well as formwork and racking systems; selected tests on metallic materials

Within the given testing field marked with *, the testing laboratory is permitted, without being required to inform and obtain prior approval from DAkkS, the free choice of standard or equivalent testing methods. The listed testing methods are exemplary.

Within the scope marked with **, the testing laboratory is permitted, without being required to inform and obtain prior approval from DAkkS, to use standards or equivalent testing methods listed here with different issue dates.

The laboratory maintains a current list of all test methods in the flexible scope of accreditation.

This document is a translation. The definitive version is the original German annex to the accreditation certificate.

Annex to the accreditation certificate D-PL-18750-01-00

1. Mechanical testing of load bearing capacity and of deformation behaviour of scaffold systems and scaffold structural elements of service and working scaffolds and falsework as well as formwork and racking systems*

Type of testing	Test parameter	Measurement range	Measurement uncertainty	Characteristic test methods
Tensile Compressive Deformation	Tensile force, Compressive force	1.0 kN - 10.0 kN	1.0 %	See below
		5.0 kN - 50.0 kN	1.0 %	
		20.0 kN - 200.0 kN	1.0 %	
		100.0 kN - 1000.0 kN	1.0 %	
	deformation	0.2 mm - 10 mm	0.5 %	
		0.2 mm - 50 mm	1.0 %	
		0.2 mm - 100 mm	1.0 %	
5.0 mm - 600 mm		1.0 %		
Inclination difference	0.001 rad - 0.25 rad	0.5 %		

Characteristic test methods

EN 74-1 2005	Couplers, spigot pins and baseplates for use in falsework and scaffolds - Part 1: Couplers for tubes - Requirements and test procedures
EN 74-2 2008	Couplers, spigot pins and baseplates for use in falsework and scaffolds - Part 2: Special couplers - Requirements and test procedures
EN 74-3 2007	Couplers, spigot pins and baseplates for use in falsework and scaffolds - Part 3: Plain base plates and spigot pins - Requirements and test procedures
EN 1065 1998	Adjustable telescopic steel props - Product specifications, design and assessment by calculation and tests
EN 12810-2 2003	Façade scaffolds made of prefabricated components - Part 2: Particular methods of structural design
EN 12811-3 2002	Temporary works equipment - Part 3: Load testing
EN 12813 2004	Temporary works equipment - Load bearing towers of prefabricated components - Particular methods of structural design
EN 15512 2009	Steel static storage systems - Adjustable pallet racking systems - Principles for structural design
